

the proposed in-kind redemption will be valued according to an objective, verifiable standard, and the redemption is consistent with the divestment policies of the Fund. Applicants also believe that the proposed in-kind redemption is consistent with the general purposes of the Act because the Affiliated Stockholders would not receive any advantage not available to any other redeeming stockholder.

Applicants' Conditions

Applicants agree that any order of the Commission granting the requested relief will be subject to the following conditions:

1. The securities distributed to the Affiliated Stockholders and non-affiliated stockholders pursuant to a redemption in-kind (the "In-Kind Securities") will be limited to securities that are traded on a public securities market or for which quoted bid and asked prices are available.
2. The In-Kind Securities will be distributed on a *pro rata* basis after excluding: (a) securities which, if distributed, would be required to be registered under the Securities Act, (b) securities issued by entities in countries which restrict or prohibit the holding of securities by non-nationals other than through qualified investment vehicles, such as the Fund, and (c) certain portfolio positions (such as forward foreign currency exchange contracts, futures and options contracts, and repurchase agreements) that, although they may be liquid and marketable, involve the assumption of contractual obligations, require special trading facilities or can only be traded with the counterparty to the transaction in order to effect a change in beneficial ownership. Cash will be paid for that portion of the Fund's assets represented by cash equivalents (such as certificates of deposit, commercial paper and repurchase agreements) and other assets which are not readily distributed (including receivables and prepaid expenses), net of all liabilities (including accounts payable). In addition, the Fund will distribute cash in lieu of securities held in its portfolio not amounting to round lots (or which would not amount to round lots if included in the in-kind distribution), fractional shares, and accruals on such securities.
3. The In-Kind Securities distributed to the Affiliated Stockholders and non-affiliated stockholders will be valued in the same manner as they would be valued for the purposes of computing the Fund's NAV, which, in the case of securities traded on a public securities market for which quotations are

available, is their last reported sales price on the exchange on which the securities are primarily traded or at the last sales price on the national securities market, or, if the securities are not listed on an exchange or the national securities market or if there is no such reported price, the average of the most recent bid and asked price (or, if no such asked price is available, the last quoted bid price).

4. The fund will maintain and preserve for a period of not less than six years from the end of the fiscal year in which the proposed in-kind redemption occurs, the first two years in an easily accessible place, a written record of each redemption that includes a description of each security distributed, the terms of the distribution, and the information or materials upon which the valuation was made.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.
